

Memorandum

TO : Director of Training

DATE: 16 April 1971

FROM : Chief, Career Training Program

SUBJECT: Weekly Activities Report

April 16 was the suspense date for initiating security clearance requests on external applicants. There are 65 external candidates currently in process and under consideration for the July class. Assuming that the previously accurate ratio of obtaining one employee from four applicants placed in process is still valid, the CTP should have 15 or 16 external candidates ready for the July class. However, the rejection/declination rate is higher than normal at this stage. So, the Program may have no more than 10 to 12 externals ready to EOD in July. This is not alarming since any shortage can be made up in the January 1972 class. The July class, therefore, should consist of from 20 to 25 trainees, including 10 to 12 internals.
